

# It's Our HOME

## Let's Keep Out

Drop off medications  
at a MedReturn Drug  
Collection Unit

### Why?

Proper disposal will ensure that your medications do not fall into the wrong hands. The wrong hand could be those of a child, a person who abuses medications, or a person not familiar with the effects. Proper disposal will reduce the opportunity of your items becoming part of the growing problem of over medication, abuse and overdoses.
